

There are corrections that need to be made.

1. Something is causing the filters to malfunction, and it happens specifically when using the **top submenu** that sits above the main image on the product detail page.
  - o For example, in the **QUEST ACCESORIOS** category, when you enter the detail page of a product and in the submenu you click the **Meta Quest 2** button, it takes you to the category but the default filter “**TIPO DE PRODUCTO**” does not appear; only “**COMPATIBILIDAD**” appears. Likewise, when you disable the filter in the upper-right area, it still does not load the “**TIPO DE PRODUCTO**” filter, even though you remain on the same link: (<https://prizmatech.pe/vr/categoria-de-producto/quest-accesorios/>)

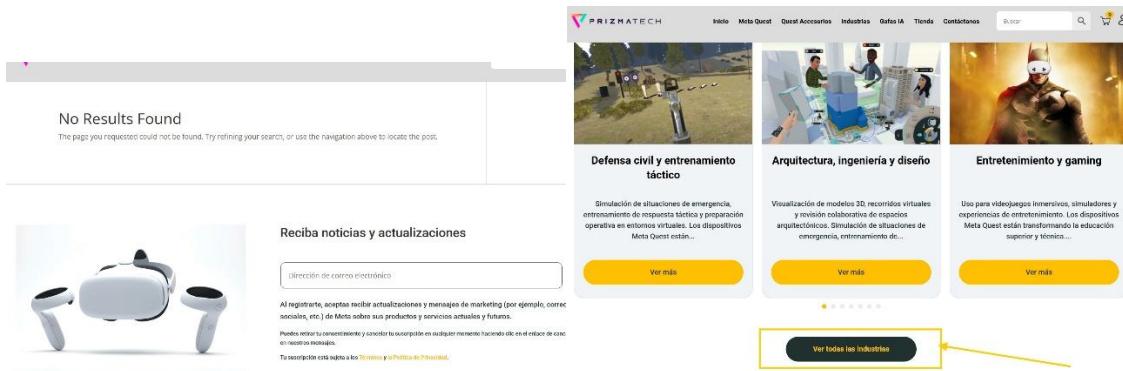

- o There is an error in **GAFAS IA** and **META QUEST**. I'm attaching some screenshots. As I mentioned, this problem is caused by the **top menu over the image** when it has **4 buttons**. Ideally, we should **remove the third button**, which references the exact model; if it's removed, it would keep the navigation clean and pointing to the general category. For example, products that do not have that access do not show errors when loading the filter. Same in the **QUEST ACCESORIOS** category. Please review this.

- I have a question: if there are **19 accessories** in total, why do only **7 products** appear when all filters are selected? Also, you can select or deselect filters and the numbers never change. What is causing this?

2. On the link: (<https://prizmatech.pe/vr/industry/defensa-civil-y-entrenamiento-tactico/>)

- o The URL should say “**industrias**” in Spanish (as shown in the section), instead of “**industry**” as it currently does.
- o Also, the “**ver todas las industrias**” button takes you to a page that doesn’t exist. Please correct that link: it should take you to the industries section: <https://prizmatech.pe/vr/industrias-de-uso/>

3. For now, please disable **card payments** and also remove/disable the **additional product to add to the cart**. We don't need it at the moment.

4. Responsive (Tablet and mobile): on the product detail page, the entire block (**title, short description, price, buy button, WhatsApp, etc.**) must appear **after** the images, and only then should the other tabs appear. Please fix this.
